

Product Data Sheet

Granulocyte Macrophage-CSF Antibody (489)

(This product has been discontinued.)

Human (Hu)

Tested Species Reactivity

Tested Applications	Dilution *
ELISA (ELISA)	Assay dependent

^{*} Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own experiment using appropriate negative and positive controls.

Details	
Catalog Number:	MA1-21368
Size:	250 μg
Class:	Monoclonal
Type:	Antibody
Clone:	489
Host / Isotype:	Mouse / IgG2a
Immunogen:	Recombinant full length protein.

Form Information

Form information is not available for this product

Product Specific Information

MA1-21368 detects GM-CSF in Human samples.

MA1-21368 has been successfully used in ELISA procedures.

MA1-21368 immunogen corresponds to recombinant full length protein.

Store at 4° C short term. For extended storage aliquot and store at -20° C or below. Avoid Freeze/Thaw Cycles.

General Information

This cytokine stimulates the growth and differentiation of hematopoietic precursor cells from various lineages, including granulocytes, macrophages, eosinophils and erythrocytes. Used in myeloid reconstitution following bone marrow transplant, bone marrow transplant engraftment failure or delay, mobilization and following transplantation of autologous peripheral blood progenitor cells, and following induction chemotherapy in older adults with acute myelogenous leukemia.

This product is for In Vitro experimental use only. Not for resale without express authorization

herem is vaid only when used by properly framed midvolusis. Unless otherwise stated in the Documentation, this warranty is intirect to one year from dute of suppose to hormal, proper and intended usage. Ins warranty does not extend to accompany of the final Public Will intended or sample.

Intended or sample warranty is a proper and intended usage. Ins warranty is intended or sample unsatised to theyer is mercity or a proper and intended usage. Ins warranty is intended or sample.
